Sir:

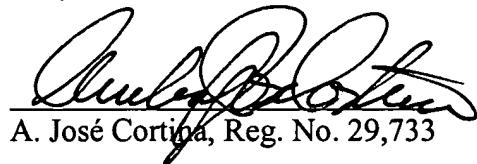

I, Anibal José Cortina, a registered patent attorney empowered to transact business with the United States Patent and Trademark Office in connection with the above-identified application, being duly warned, do hereby declare as follows:

1. I am the attorney who drafted and filed the above-identified application at the assignee's request, and after final review and revision of the text of the application by the inventor thereof, filed the application with the United States Patent and Trademark Office ;
2. As a standard practice, I review assembled papers being mailed to the United States Patent and Trademark Office to ensure that all necessary applicable papers are placed in the mailing envelopes;
3. As a standard practice this review is done after photocopies for my records have been made to ensure review of the package occurs just before sealing in an envelope;

4. In the case of patent applications, I include as part of my routine verification that each and every one of the drawings which are described in the "Brief Description of the Drawings" is attached as part of the package;
5. A review of my file copy of the above-identified application includes copies of the allegedly omitted Figures 8B and 8C, including a copy of the application identifying information appended on the back side in the form of a footer;
6. I recollect having followed the above procedure prior to allowing my assistant, Lynette Bailey, to place the application papers in an envelope for mailing to the United States Patent and Trademark Office; and
7. Based on the foregoing, and based on a review of the United States Patent and Trademark Office image database showing images of Figures 8B and 8C as received by the U.S. Patent and Trademark Office, I am confident that Figures 8B and 8C were filed with the application on December 30, 2003 and received by the United States Patent and Trademark Office.

The undersigned being duly warned that willful false statements and the like are punishable by fine or imprisonment, or both (18.U.S.C. 1001), and may jeopardize the validity of the application or any patent issuing thereon, hereby declare that all statements herein made of the declarant's own knowledge are true and that all statements herein made on information and belief are believed to be true.

Respectfully Submitted,

A. José Cortina, Reg. No. 29,733
